# **Safe, Healthy, and Responsible**

Directory of Health Resources

The Chicago Department of Public Health, in partnership with Chicago Public Schools, policy makers, health care service providers, and many other stakeholders invested in adolescent health, have joined together to address the health needs of adolescents. This directory is just one element of a larger initiative designed to help expand access to health care, improve the quality of provider engagement, and reduce health disparities.

Navigating your way through the health care system can be challenging.

# This information should help.

## Health Insurance

**Health Insurance Options** – Your family can find health insurance suited to your needs, whether private or public options. To learn more about the Affordable Care Act (ACA) visit [healthcare.gov](#)

# School Based Health Centers (SBHC)

SBHCs provide a safe, nurturing place where students can get flu shots, annual physicals, have their eyes and teeth examined, or speak to a counselor. By providing primary care, counseling, family outreach, and chronic illness management – without concern for the student’s ability to pay and in a location that meets students where they are – SBHCs help students stay healthy and become better learners.
